

**Position: Chief Flight Nurse**

The work we do is exceptional. Fast Air MedEvac is made up of individuals who are dedicated to providing excellent patient care. We are looking for an individual to join our team of dedicated, caring health care providers.

Flight medicine will be without a doubt one of the most exciting chapters of your life in healthcare. You will learn, you will be challenged, and you will often know that you have made a tangible difference in someone's life. If this sounds like the challenge for you, we want to hear from you!

**Qualifications:**

- Minimum RN Diploma
- Active Licensure with the College of Registered Nurses of Manitoba
- 5+ years ICU &/or Emergency Room experience in a tertiary setting
- &/or 3+ years Flight Nursing experience
- NRP, Obstetrical experience (preferred)
- Charge Nurse experience (preferred)
- Strong leadership, organizational and people skills

**Position Overview:**

This position is responsible for the delivery of medical/nursing care within Fast Air MedEvac. The Chief Flight Nurse will ensure that medical/nursing care is given in accordance with Fast Air MedEvac policy and procedures and with government regulation. Responsibilities include but are not limited to scheduling of medical personnel, annual staff evaluations, medical supplies and equipment, documentation to government agencies as required and conducting regular staff meetings. The Chief Flight Nurse will also remain active in Flight Nursing as the job requirements permit.

Fast Air offers a competitive salary structure along with a company pension plan. Preference will be given to qualified Fast Air Staff.
