

Fast Air Awarded Jenpeg Contract

FOR IMMEDIATE RELEASE:

Winnipeg, Manitoba, December 9, 2005 - Fast Air Ltd. announced today that it has been awarded a contract from Manitoba Hydro to provide scheduled air service. This service enables Manitoba Hydro to move staff in a comfortable and efficient manner to one of its key northern locations. The destination is the Hydro operation at Jenpeg Manitoba – 320 miles north of Winnipeg.

“Fast Air is very pleased about this new development” says President Dylan Fast. *“In addition to providing executive air charter service, Fast Air is able to provide customized travel solutions needed by customers like Manitoba Hydro.”* The transportation contract means continued growth for the company and will mean the creation of 3 new positions at Fast Air – bringing total staff size to 45.

Manitoba Hydro president Mr. Bob Brennan commented, *“A complex operation like Manitoba Hydro needs dependable services like Fast Air. We are delighted to have an arrangement that works so well for us.”* Mr. Brennan was on hand to view a newly acquired 12 passenger commuter aircraft, a King Air 200 has been specially configured to operate for this type of operation.

Fast Air operates a fleet of aircraft for business travel including both Jets and Jet-props. It has extensive Northern flying experience, a highly trained maintenance department and recently celebrated its tenth anniversary. The services offered by Fast Air include air charters and aircraft management.

Background

Fast Air Executive Aviation Services

Fast Air began its Winnipeg based air charter service in since 1995. Since its beginning, Fast Air has flown thousands of customers to all parts of North America and to every point in Manitoba. Fast Air has served as a lifeline to Manitoba businesses that operate in our unique environment.

Fast Air can fly directly to over 7000 towns and cities in North America - helping to keep Manitoba's businesses strong and competitive. The Fast Air fleet of aircraft includes both Jets and Jet-props, for transport of business and government leaders on a daily basis. Dramatic growth has brought the company to a new level, now offering a full range of business aviation services, from business charters, to corporate aircraft management.

The Fast Air Business Terminal located on the south side of the Winnipeg International Airport (YWG) and enables Fast Air to provide a broad array of customized travel solutions. The Fast Air terminal combines a state-of-the-art hanger, lounge and attached office space, is perfectly designed for business travel. Easy access and plenty of parking make it a highly desirable setting for business travel.
