

## New Aircraft and New Levels of Service!

FOR IMMEDIATE RELEASE:

**Winnipeg, Manitoba, May 11, 2005** - Fast Air Executive Charter Services has added new aircraft to its Winnipeg based services. The additional aircraft represent an investment of over \$2,000,000 and the creation of new pilot and engineering positions.

Growth in demand for Fast Air Executive Charter Services has made it necessary to increase the number of available aircraft. A King Air 200 and Piper Chieftain have been added to our existing fleet, bringing the total to ten aircraft. These 2 additional aircraft will provide increased capacity for travelers whose needs are time sensitive or location specific.

Also, a complete refurbishment of a Westwind business jet allows Fast Air to offer the highest standards of comfort, convenience and equipment in the jet service arena.

**Westwind Business Jet:** Non-stop service to all of North America. Seven First-Class seats, private entertainment system, phone, and private lavatory.

**King Air 200:** Jet-prop service – 8 executive seats, portable CD/DVD players. Speed and comfort.

**Piper Chieftain** – twin engine service – 8 seats, comfortable economy for regional and remote settings.

Fast Air is one of Canada's leading business charter airlines, known for its standard of excellence. Services include air charters, aircraft management, MedEvac services, aircraft maintenance, and aircraft acquisition.

Headquartered at the Winnipeg International Airport since 1995, Fast Air flies on short notice to any destination in North America. For more information see: [www.flyfastair.com](http://www.flyfastair.com)
